🕒 Last Edited Time	@January 23, 2023 12:07 PM
📅 Date	
📄 Status	

What did we do last week?

- Find dash cam videos online, trim them, and import into Roboflow to annotate
- Submit purchase order for remaining Pi equipment
- Tested trained models on dash cam video clips to detect on to see what parts of the image datasets need to be improved, tweaked, or supplemented—

What are we doing this week?

- Test models on imported video
- Collect real world data using PiCam
- Improve MAP score possibly using poly bounding box (Josh)

Potential blockers?
